IT MAY BE DISSOLVED.

POSSIBLE END OF THE BROOKFIELD-SWAYNE ORGANIZATION.

RESULT OF THE DISPUTE ON MONDAY NIGHT-MR. BROOKFIELD SAYS IN ALL PROBA-BILITY HE WILL NOT ATTEND AN-

OTHER MEETING. It is probable that the Republican Organization of the County of New-York-the Brookfield-Swayne organization-will be dissolved at an early date. This is the result of the dispute that arose at the meeting on Monday night As a consequence of the trouble created by the disaffected element of the organization, the leaders are so disheartened that yesterday they admitted there seemed to be little hope of carrying on the work of the organization, or even of maintaining its identity. Members asserted that the Jerome faction had destroyed its usefulness. Ardent supporters of the organization are announcing their withdrawal from it, and candidly say they have lost faith in it. The two resolutions declaring the position of the organization in the State campaign remain unacted upon, and are likely to so remain for a

long time, it was said yeterday. The resolution of the Jerome faction offered at the previous meeting, proposing to support the Citizens Union candidates, was bitterly denounced yesterday by some members. A prominent leader said: "This will never receive the sanction of a majority of the Brookfield-Swayne organization. We cannot bind ourselves to accept the judgment of the Citizens Union, for their policy in the Low campaign was one that we cannot upnoid. The only effect of their ticket will be to divide the respectable vote and give the Democrats a better chance to win. We cannot go into a rule-or-ruin policy."

The resolution renominating Governor Black will doubtless be dropped, it was added, as the advocates of the resolution, in the interest of harmony, do not wish to stir up those who op-

pose it.

When William Brookfield was seen yesterday the only comment he would make on the meeting was:

"The only thing I can say about last night's meeting is that in all probability it will be the last one that I shall ever attend."

The action of the Jerome faction in trying to get an indorsement of Theodore Roosevelt for Governor caused much talk. Mr. Brookfield places the strength of the faction at about twenty in the organization, and said that it wanted to do everything save be regular.

REPUBLICANS ON THE ALERT.

CONGRESSIONAL COMMITTEE HARD AT WORK PREPARING FOR THE NEXT CAMPAIGN.

Washington, July 26 (Special).-Despite actual war and rumors of proposals of peace, the Re-publican Congressional Committee is busy with preparations for the usual biennial political cam-paign, on the result of which will depend the political complexion of the House of Representatives of the LVIth Congress. The advices thus far received by the committee are highly encouraging, and a greater degree of interest is being shown than might have been expected under the circumstances, all present indications pointing to Re-publican success in November, and heavy gains in several of the Pacific and other Far Western

It is scarcely a surface interest as yet, he ever, although large numbers of private letters received here show that Republicans throughout the country are on the alert, and that the importance of upholding the Administration in the grave crisis through which the country is passing is clearly and keenly realized. It is gratifying to know that the same thing is true of a great many men who have acted with another party in times past, but whose patriotic instincts have impelled them to give assurances of sympathy and support. They at least are not alarmed by the cry of "imperialism," and do not seem disposed to try to cross bridges that have not been and probably never will be reached.

Of course, it is to be expected that some at least of the ordinary issues which divide the parties will figure in the coming campaign. Chief among

will figure in the coming campaign. Chief among these is the "free and unlimited coinage of silver at the ratio of 16 to 1, without the aid or consent of any other country on earth."

When this was mentioned several days ago to a veteran Democratic campaigner he shook his head sadly and observed: "The doctrine is as true today as it was two years ago, but what do men who are reading war news and praying for the safety of their sons at the front, or who are safety of their sons at the front, or who are stirred with the feelings of the time, care about tit? Why, even Bryan has other things to think about these days. Do you suppose you could get together a crowd of five hundred people in Nebraska or anywhere else to listen to free-silver stump speeches so long as this war lasts, or until the questions it will leave behind it have been settled? If you do, you are grievously mistaken, settled? If you do, you ar

MOUNT VERNON'S MYSTERY SOLVED.

THE WOMAN FOUND DEAD IN A VACANT LOT WAS MRS. TRASIER, OF YONKERS, WHO COMMITTED SUICIDE.

The mystery surrounding the death of the woman whose body was found on Sunday in a vacant lot in Mount Vernon was solved last night. The woman is Mrs. Hannah Trasier, thirty-five years old, the wife of Nathan Trasier, of Yonkers. Mrs. Trasier had trouble with her husband and had not been living with him for several years. After leaving him she lived with her brother, Harry Neuman, a fruit dealer, of Avenue E, New-Rochelle, and with two other brothers in Brooklyn. She left New-Rochelle about July 1 to go to Brooklyn and told Neuman that on her return she intended to visit in Mount Vernon a friend who lived there.

The discovery of the identity of the body was made through a bundle of clothing found yesterday morning among the weeds in the field where the body had lain. Some city workmen picked it up while mowing the weeds for the purpose of finding evidence for the police. It was taken to the police station and opened and found to contain the pair

station and opened and found to contain the pair of shoes, hat and clothing which were missing from the body. In one of the pockets Coroner Banning found a letter written in Hebrew.

As near as it could be translated the letter informed her relatives that she was unable to support herself and her son, Henry, twelve years old, and she intended to kill herself. She asked them to keep her boy, now with his father in Yonkers. A description of the clothing and letter were given to Captain Edward Timmons, of the New-Rochelle police, and he sent for her brother, who went to Mount Vernon and identified the clothing. The bundle of clothing contained bottles which had held chloroform and laudanum.

WESTCHESTER COUNTRY CLUB'S COM-PLAINT.

C. Carey, chairman of the House Committee of the Country Club of Westchester, and Vernon C. Potter, vice-president of the club, who had Frederick Lohbauer, proprietor of the Bay View Villa, of Throngs Neck, summoned to the Centre-st. court two weeks ago on the complaint that he was maintaining a nulsance, appeared in

the Jefferson Market court yesterday. Magistrate Meade had ordered the proprietor to abate the nuisances, which, it was alleged, con-sisted of grunting pigs, a musical carrousel and a

steam calliope.

Lonbauer did not appear in court yesterday, and Magistrate Meade issued a warrant for him. Mr. Carey said that the man used to keep his place open till 11:30 p. m. He closes at 19 o'clock now, but the noise. Mr. Carey said, was almost as great, and his children could not sleep.

RICHMOND BOROUGH HAPPENINGS.

Patrick Kenney, of Seventh-ave., New-Brighton, who was employed in the chemical manufacturing department of the Standard Oil works, at Constable Hook, was climbing into a rowboat from a wharf on the New-Jersey shore about 3:30 o'clock yesterday afternoon, when he fell overboard and

yesteray atternoon, when he telescont and was drowned.

John R. Scott, the little son of John Scott, a ship carpenter, living in Richmond-ave. Port Richmond, fell into the Kill von Kull from Van Cleif's wharf at 4 o'clock yesterday afternoon. The wharf adjoins the Bergen Point ferry landing, and the accident was witnessed by a deckhand on a ferryboat which was just leaving the slip. He shouted an alarm, and William Russell, the ferry ticket agent, put off to the rescue in a small boat. He was too late to save the child's life, but he succeeded in recovering the body.

WILD STORIES FROM MEXICO.

FALSE REPORTS OF SERIOUS CRIMES PERSIST-ENTLY CIRCULATED.

Washington, July 26 (Special) -In a telegram dated Washington, July 1, and published in a New-York newspaper on the following day, it was stated that Captain Argudin, General Blanco's aide-de-camp, and Lieutenant Velasquez, of General Pando's staff, had arrived at Vera Cruz on the steamer Bergen and were inciting Spanish residents in Mexico to organize an invasion against the United States from frontier towns, and were trying to make Vera Cruz a base of operations for

sending provisions to blockaded ports in Cuba.

The attention of the Mexican Government having

The attention of the Mexican Government having been called to the above supposed information by the Mexican Legation here, an investigation was made and word was returned that the dispatch was absolutely without foundation.

In a newspaper printed at St. Joseph, Mo., a dispatch was recently published to the effect that John H. Brown, an American citizen, who was employed by the International Railroad at Trevino, had been murdered in Mexico, while being taken from Trevino station to Monterey, by five persons who had him in custody.

The attention of the Mexican Government having been called to this report by the Mexican Legation, an investigation was thereupon made by the Governor of the State of Coahulla, where the murder was supposed to have been committed, and the Governor promptly reported that no such crime had taken place.

COSTA RICAN VICE-PRESIDENT HERE.

DR. ULLOA WILL LIVE IN THIS CITY AS CONSUL

GENERAL Dr. Ulioa, Vice-President of the Republic of Costa Rica, arrived in New-York yesterday on the steamer Alleghany, of the Atlas Line. He was accompanied by his entire family, and expects to make this city his permanent home, in order to give his children the benefit of the schools here. Ulloa was, up to the close of the last Presidential term in Costa Rica, on May 8, the Secretary of the Interior and Public Improvements, but resigned that office to become First Vice-President -there are three-which office he now holds. The mission of the doctor in this country is a public

as well as a private one. He comes accredited as

Consul-General and also as Consul at New-York.

Last night, when seen at No. 54 West Twenty-fifth-st., he talked freely of his mission and of what he expected to accomplish for his country. "Costa Rica," said the doctor, "is a small but

"My first move will be to open a bureau of information in this city, where your manufacturers and importers can get any information that will be of value to them in dealing with Costa Rica. I also hope, through spreading a knowledge of the country, to induce immigration."

When asked what Costa Ricans thought about the war, and in which direction there sympathies tended, Dr. Ulloa said:

"Of course, they want freedom for Cuba. They see the humanitarian side of the question, and see that the first and best remedy for the terrible situation is Cuban independence. On the other hand, they can't help having some sympathy for Spain, on account of their origin, nearly all of the population being Spanish or of Spanish descent. But, as I say, they all see the humanitarian side. Among the better class of people the feeling has been for some time that Spain should lose Cuba. Sentiment is extremely favorable toward the Americans, and has been, especially since the settling of the boundary differences between Costa Rica and Nicaragua by ex-President Cleveland."

Dr. Ulloa expressed the opinion that Porto Rico would very soon be a possession of the United States.
"I am myself," said Dr. Ulloa, "a graduate of the

"I am myself," said Dr. Ulioa, "a graduate of the Medical School of the University of New-York."

In response to a question as to the wealth of the Costa Rican people, the doctor said: "With us, while there are no great fortunes, there are, on the other hand, none who are extremely poor. The wealth is evenly divided, and every one has enough to live on in comfort. Great improvements are going on in the country. New land laws are to be soon enacted to encourage immigration, and a railroad is now being constructed to connect Liman, the Atlantic port, with the new Pacific port of Tivives, giving a railroad from ocean to ocean."

As to the Nicaragua Canal, he said that any scheme which promised to secure the building of the canal would be eagerly welcomed by Costa Rica. With the plan proposed, by which the United States should buy the land and build the canal, he declared himself perfectly satisfied.

"Preparations are now being made for the adoption of the gold standard monetary system. A new standard gold piece, known as the colon, equal to about forty-seven of your cents, is being coined, and in about a year the new pieces will be put into circulation."

VISITING THE WOUNDED MEN.

WOMEN OF THE RELIEF ASSOCIATION PLEASED WITH WORK ON GOVERNOR'S ISLAND.

Miss Helen M. Gould, Mrs. Russell Sage, Miss Hope Northrop, Miss Margaret Terry, Mrs. Frank K. The party met at the Army Building shortly The party met at the Army Building shortly after noon, where Dr. Alice C. Brown was nwaiting them. They then took the ferryboat to Governor's Island, where Colonel Justice M. Brown, chief of the medical supply depot, and his wife met them. They then went through the military hospital, passing from cot to cot and talking to the wounded soldiers. Miss Gould paid special attention to the wants of the men, and made inquiries of each one as to his needs.

After the inspection, which lasted nearly two hours, the entire party expressed their pleasure and approval of the care being shown to the men at the hospital. They decided that the relief association should send pajamas, oranges, lemons and various other articles and delicacies to the men in the hospital, and this will accordingly be done at once. The association will also send oranges and lemons to the sick and wounded now at Santiago.

He also proved that he had died a glorious death in defence of his country, and his memory would always be respected by all his acquaintances and friends. The Young Men's Christian Association Glee Club sang hymns appropriate to the occasion. A detachment of reserves from the Yankee was present, and so many friends were attracted to the service that many could not gain admittance.

Justice J. O. Dykman, in the Supreme Court, has handed down an opinion in the case of Charles Deuterman against Alexander Policek, on a motion made by the counsel for the plaintiff for the resettlement of the case for the purpose of an appeal to the Appellate Division from a judgment in favor of the defendant. The case was regularly settled by Justice Dykman in accordance with the official stenographer's minutes of the trial. The counsel for the plaintiff had a stenographer, who took the testimony also, and the counsel in the motion before the Court insisted that the notes of the official stenographer were erroneous in certain respects, and asked that the notes taken by his private secretary should be adopted in the settlement of the case. The Justice finds that there is no pretence that the case is not settled in accordance with the notes of the official stenographer were erroneous. The counsel for the defendant has consented to some of the chances desired by the opposing counsel, and they have been made, but it is impossible to go any further. The request to substitute the notes of a private stenographer for those of an official stenographer. The request to substitute the notes of a private stenographer for those of an official stenographer cannot prevail for obvious reasons.

TIME LIMIT FOR PAYING SPECIAL TAXES.

IT EXPIRES ON SEPTEMBER 1-DIFFERENCES BE-

TWEEN THE OLD AND NEW REVENUE LAWS. The time limit set for the payment of the special taxes required under the law of June 14, 1898, is drawing to a close, and those who are subject to the taxation who neglect to make the legal applica-tion for licenses before the last day of the present month will be liable to the imposition of a penalty amounting to 50 per cent of the tax.

Charles H. Treat and Ferdinand Eidman, Collectors of Internal Revenue for the IId and IIId districts, said yesterday that there would be no excuse for any one neglecting to take out his licenses, as they had given the utmost publicity

According to Mr. Treat, a great amount of mis-understanding seems to prevail regarding the decision of Commissioner N. B. Scott touching the liability of all commission merchants to take out a special license of \$20 before September 1. Under the old revenue law a distinction was drawn between a is held that every merchant or mercantile firm receiving goods on commission must be provided with the special license. Many protests have been made against the construction of the new law arrived at by Commissioner Scott, but up to yesterday no intimation had been received of cision, the gist of which is contained in the following extract from his recent letter to the collectors of this city: "You are hereby advised that every

"But a person who is simply employed by one or more firms to act as their agent in travelling and soliciting orders for them for the purchase of goods and transmitting such orders to them to be filled is held not to be a commercial broker within the meaning of this act, even though he is paid a commission instead of a salary.

"As the time allowed for making applications," Mr. Treat said yesterday, "expires at the end of the present week, the matter is a pressing one, and commission merchants who do not send in their applications within the prescribed time will be muleted in a penalty of \$10, which is 50 per cent of the amount of the special license. Blanks may be had at the offices of the collectors either by mail or personal application. These blanks require the names of the members of the firm to be written on them, together with place of business, and must be sworn to before a notary by one of the firm. A separate license is required for every separate place of business."

RECRUITING FOR THE NAVY.

COMMANDER HAWLEY OPENS A PERMANENT STA-TION AT CHICAGO.

Washington, July 26.-While engaged in making a tour of the Western Lake cities, recruiting sailors for the Navy, Commander Hawley succeeded in securing the consent of the Navy Department for the establishment of a permanent naval recruiting station at Chicago, the only one in the Middle West. This station opened up for business yesterday in rooms in the Masonic Temple, secured by Commander Hawley before he left Chicago on his return to Washington. It is in charge of Lieutenant-Commander Holman Vall, who will have assoclated with him Surgeon Moore and Chief Engineer Borthwick, both retired officers, and Boatswain Hudson. The plan of operations is to recruit at Chicago, and as soon as forty or fifty men have been enlisted, to send them to the nearest navy yard where they may be needed, in charge of one of the officers named. Permission has been given of the officers named. Fermission has been given to the commanding officer of the United States steamer Michigan, sow at Eric, Penn., to accept recruits as long as the present war continues, but beyond this, and continuing the Chicago station permanently, the Navy will do no more recruiting in the West unless some unforeseen emergency

FLORIDA TROOPS GOING TO THE FRONT.

WILL PROBABLY BE ORDERED FROM FERNAN-

DINA TO SANTIAGO. Fernandina, Fla., July 26 (Special).-The destina tion of the Florida regiment appears no longer to be a matter of conjecture, as it has been decided that they are to sail within the next few days for the front. Some have it they are to go to Porto Rico, while other rumors point strongly to their being used in Santiago as guards throughout the city, together with the Georgia regiment, these two being the nearest acclimated and likely to be able to withstand the tropical diseases.

The Florida boys appear to have no fear of going

into the fever at Santiago, but hall the news of

their departure with especial delight. The departure of this regiment will leave both the First and Second brigades of the Third Division with only two regiments each. The 3d Ohio reached here this morning, and has gone into camp next to the 6th New-York.

The 2d Regiment of New-York Volunteers is expected to arrive to-morrow morning, and is to be attached to one of the brigades now here. The Second Division Hospital Corps, in charge of Captain Cullen, is here, also the commissary depot chief, Captain R. W. Thompson, and his assistant, Captain J. H. Teagarden. The day has been rainy and disagreeable, but the work of arranging the camps has continued with unabated vigor. General J. Rush Lincoln, commander of the Second Brigade of General Carpenter's division, arrived to-day with his staff. their departure with especial delight.

INDIAN TERRITORY DIVISION CREATED. Washington, July 26.-A new division has been created in the Interior Department, known as the Indian Territory Division, with Luther R. Smith, formerly employed in the office of the Assistant Attorney-General for the Department, at its head. This division will have to carry into effect the pro-visions of the Curtis bill providing for a new method of administering affairs in the Indian Terri-tory. The Curtis bill provides for the allotting and leasing of Indian lands, judicial and educational affairs, etc.
